

Managing Cybersecurity Threats during COVID-19

Stay Safe • Work Safe

Introduction:

The recent pandemic attack has led to massive business disruption and forced many unplanned changes of workflow, e.g. office evacuation to Work-from-home (WFH). These unexpected changes may expose organizations to cybersecurity issues, security vulnerability, or even an open door to hackers. To address the security risk, this course is going to share how we can keep business vigilant and vigorous during this crisis.

Who should Attend:

Anyone who concerns about Information Security and Business Continuity, especially during the outbreak of COVID-19. This course is suitable for those without IT technical background

Course Objective :

This course focuses on the risk base approach to address the challenges and security risk arise from the pandemic, by setting up a risk management process and holistic policies to detect and to prevent information leakage and security attack. It also aims to build a dynamic business continuity strategy to plan and to response to business interruption, so to minimize the operation disruption and service outage.

Course Highlights

1. How to establish a Risk-Based Approach to address information leakage and cybersecurity
2. How to develop Holistic policies to safeguard Information Security and Service Continuity
3. Best Practices on Teleworking and Mobile device security at office and work from home
4. How to enhance Staff Awareness on Information Security - Everyone contribute to Information security and safeguard company asset
